

Large Format Printing

Whether you have signage needs for an upcoming event or if you just want to spruce up your office with your mission statement, large format graphics can be an essential part of your communications strategy. Fineline Printing Group is your one-stop solutions partner to produce your quality large format graphics.

Why Fineline?

Whether you are an existing client or new to Fineline, you may want assurance that Fineline is the right choice for producing your large format materials. Here are ten reasons to consider:

1) Best Product at the Best Price

We work with you to determine the best application for your needs at the best price. Our account managers and customer service staff are trained on a variety of materials and their applications. Have a unique idea? Our Large Format Department will consult with you directly to determine the best approach to get you what you need within a budget that works for you.

2) Quality

After 30 years in the business, we know what's necessary to produce a quality graphic. Your project will receive the same detailed attention we're known for with all of our printed products. And, our variable dot imaging technology allows us to print everything from the sharpest of images to the more uniform solid colors. The vivid colors capture the attention of your customer and make an impact with your message.

Applications

- Indoor and Outdoor Banners
- Wall Graphics
- Window Graphics
- Ceiling Danglers
- Point of Purchase (POP)
- Corporate Décor
- Tradeshow Displays
- Retail Displays
- Posters
- Decals
- Free-standing Signs

3) Convenience

You can now get all of your large format printing projects handled at the same place you go to for your other printing needs. Forget about those inconvenient—and costly—trips to the printing chain stores.

4) Volume

Our prices are competitive at any volume. Printing at 233 square feet per hour, we can churn out everything from a single banner to 100 banners for your entire business—quickly and with the consistency you want for your message.

5) Variety of Materials

Our state-of-the-art technology can handle both rigid and flexible substrates. We print on almost any material less than two inches thick—including vinyl, PVC, foam board, wood, plastic, tile, and light metals—and up to 96 inches wide. And, with our UV-curing ink system, your graphics stay crisp and clear, even under the harshest weather conditions.

Outdoor sign on .030 durable styrene plastic, inserted in a frame

6) Custom Shapes

We can cut, score, and route a variety of flexible and rigid materials. Our routing equipment is fast and accurate and can custom route any shape you need on materials up to one-inch thick.

7) Customer Service

Fineline clients expect our customer service to be trustworthy, accountable, and communicative. That is our pledge to you.

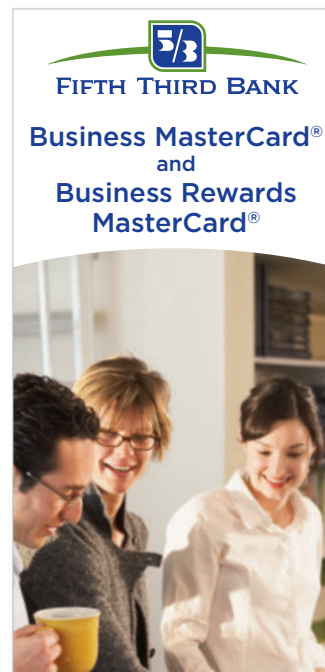

8) Fulfillment

We can store your stock, track your inventory, alert you at re-ordering points, and deliver your products worldwide. Got a job with multiple steps and layers? No problem, we can handle the kitting and assembly for you.

Posters printed by Fuji Acuity Advance held in place by Vacuum Flat Top for a full bleed

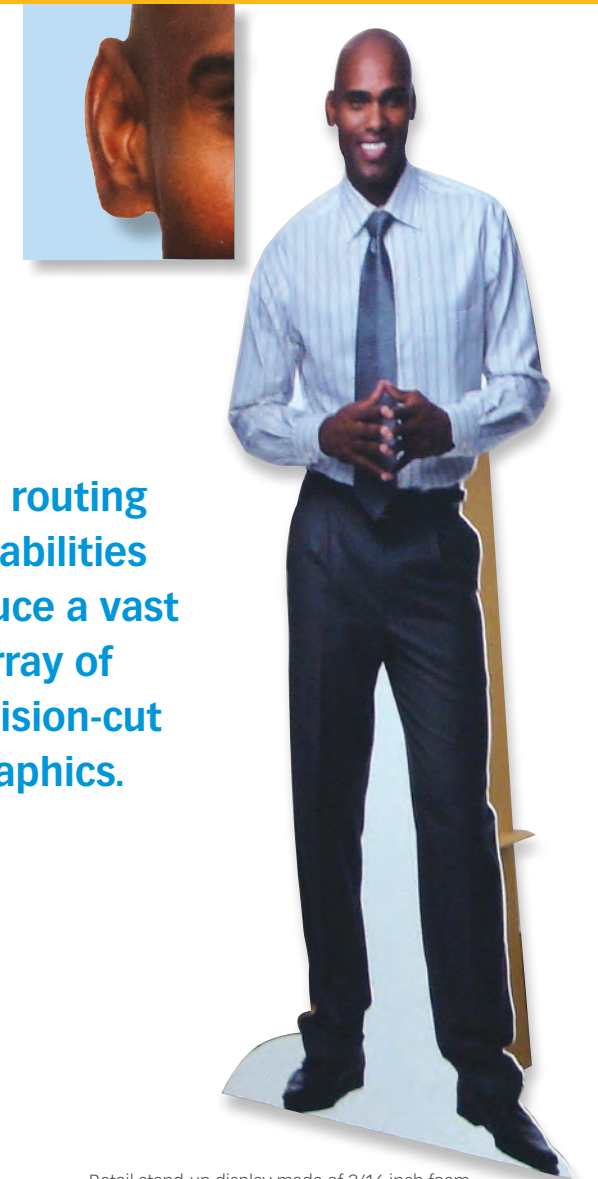

We can print on almost any material up to two inches thick and up to 96 inches wide.

Economical retail wall displays on 3/16 inch ultra board

Indoor-outdoor signs made on poster paper and inserted in frames

Retail stand-up display made of 3/16 inch foam board, intricately routed on our i-cut Table

Horizontal and vertical outdoor banners on 13 ounce scrim vinyl, double stitched for extra durability and with grommets

Our routing capabilities produce a vast array of precision-cut graphics.

Strong but lightweight indoor banners on 10 ounce scrim vinyl

Large Format Printing

9) Environmentally Aware

If sustainability is important to you, we will advise you on the environmental impact of the materials you are considering to use for your large format graphics.

Low-cost window graphic with a low tack, pressure-sensitive adhesive that is repositionable, removable, and may be reapplied to most surfaces.

Attractive, durable indoor-outdoor sign made of 1/2 inch PVC board

Outdoor sign on mesh vinyl that provides 37% airflow increasing durability and resistance to tearing

10) Supplier Diversity

Supplier and employee diversity is an important initiative for many companies and organizations. As a certified minority-owned business, Fineline is committed to promoting diversity through contributions and participation in both national and local diversity programs. This commitment is shared by many of our clients.

Fineline Printing Group is a leading commercial graphics and mailing provider in the Midwest. Fineline's customers get the best in purchasing efficiencies and brand quality from our wide range of products and services and state-of-the-art equipment. Our knowledgeable account executives personally handle the details of every project and look for ways to make it better or more efficient. That's why our motto is "we will not ask for your business until we can help you improve it."
